常用 C-CS 转接环 型号 Model: VM5C; 即圆筒外径为 31mm, 厚度为 5mm。

C 口与 CS 口镜头都采用相同螺纹规格, 但因法兰焦距存在 5mm 差异(C 口 17.526mm; CS 口 12.5mm), 需通过加装 5mm 转接环实现相互兼容使用。5mm Extension Tube can, also, be used with C-Mount Lens to fix to CS-Mount Camera.

Extension Tube Kit allows to be focused on an object that is nearer to the camera than the normal lens focus movement provides.

Extension Tube Kit is consists of 10 metal spacers and barrels of the following length (0.5, 1, 2, 5, 10, 15, 20, 30, 40 and 50mm). By using these individually or in combination between the lens and camera, the lens can be focussed at the following object distance.
